

BLUETOOTH HEADSET HC-ZB360S & HC-ZB360B PAIRING INSTRUCTIONS

1. Make sure the headset is off (no flashing lights).
2. Press and hold big silver button for about 10 seconds (until light flashes red and blue)
Note: After first 4 to 5 seconds the light will only flash blue DO NOT release the button
3. Once light starts flashing red and blue release the button
Note: Light will flash red & blue for 1 minute, during this time the headset is discoverable by your cellular phone
4. While headset light flashes red & blue, complete pairing process on your cellular phone (see your cellular phone's user manual for pairing instructions)
Note: In case the light starts flashing just blue and you did not complete pairing process, please turn off the headset and start from step 2)
5. When prompted for a passkey enter 1234
Note: When pairing is completed, the Headset LED will flash blue, followed by a long beep and the headset light will start flashing blue every 4 seconds
You should now be able to make and receive calls using your Headset
